

After many months of isolation, Sailability Manly is now preparing to go back to sailing as soon as possible, taking slow and careful steps to ensure that everyone will be safe in the new world that has developed since early March, 2020. This refers to the Covid-19 Pandemic, which is still out there, but a little more controlled as we move to the end of 2020.

Charlie's Chariot has been serviced, the boats have been cleaned thoroughly, and we have developed a Covid-19 Safe Environment Plan that will keep everyone as safe as possible. We have been following news from Government and Sports Associations that will allow us slowly to get back to normal as we learn ways to keep ourselves and others safe. This will take some time for us to learn and practice before we open our doors to all of our groups, so please be patient and wait until all has been completed.

There will be no charge for Membership this year, so to renew your Membership of Sailability Manly, just let us know that you wish to return, and you are a member until 30th June, 2021. This includes people who would like to join as members now but have not been members in the past. This does not prevent you from making a small donation if you feel that you would like to do this.

The rules state that Social Distancing must continue to be practised. This means that if you do not know how to sail independently, you will need to wait a few more weeks until the Social Distancing laws allow us to have 2 people in a boat. The law states that people in the same family, who live in the same house, do not need to Socially Distance, so that people in the same family are able to sail together.

For the remainder of the Winter, we will be training our volunteers to sail better on the following dates.

Wednesday, 15th July,

Monday, 27th July,

Saturday, 8th August,

Wednesday, 12th August,

Monday, 31st August.

Hopefully, after these dates, the 1.5 metre Social Distancing Rule will have disappeared, and we will be able to go back to our regular programs.

More news about our program will be available after these dates.
